**Eye Health Plan** by Innovation Eye Clinic aims to provide world class, affordable and local eye care for anyone that has a chronic eye condition that needs regular monitoring. These eye conditions are not usually covered by private health care.

You will always be seen by a leading consultant ophthalmic surgeon at every visit and if convenient can have your testing done at your local optometry visit. Eye Health Plan covers any chronic eye condition including glaucoma, ocular hypertension, glaucoma suspect, cataract, age related macular degeneration and diabetic eye disease.

After an initial comprehensive consultation with Mr Ratnarajan, the most appropriate plan for you will be discussed and subsequent follow up visits will be booked.

You can pay annually or by monthly instalments for your chosen plan.

Eye Health Plans range from £15 per month up to £35 per month depending on the number of consultations you require each year.

We have already seen the benefits to many patients who utilise Eye Health Plan as they now have the reassurance of having a leading consultant see them at every visit and the peace of mind knowing that their appointments will not be postponed or cancelled and can be made at a time that is convenient to them.

If you would like any further information please do not hesitate to contact us on 0800 005 3335 or [info@innovationeyeclinic.co.uk](mailto:info@innovationeyeclinic.co.uk)
